

DD/S&T-2090-63

5 DEC 1963

Dr. I. S. Blumenthal
The Rand Corporation
Santa Monica, California

Dear Dr. Blumenthal:

I was interested in the report you recently sent me -- "Area Defense Against Submarine-Launched Ballistic Missiles (U)", and have passed it along to our analysts in the Office of Scientific Intelligence who are concerned with this type of problem.

It is curious that I was looking at essentially the same idea in connection with terminal defense against ICBMs. This was contained in an old Ramo-Wooldridge report, circa 1953, which has evidently been superseded by the extraordinarily complete work given in your report.

Sincerely yours,

[Redacted Signature]

Albert D. Wheelon
Deputy Director
